State Budget is a Crisis for UC

Where does the final, approved California budget put UC? In a very grim state.

UC initially asked for a $226 million increase over last year. The University received $1.881 billion in general revenue funds for 1992-93. That is a *reduction* of $224 million from last year and is a drop of $450 million from what UC had originally requested.

The Governor's initial budget gave the University $31 million more than last year. But, the final approved budget from the legislature came in at $255 million *less* than the Governor proposed.

"This is worse than expected," said Larry Hershman, associate vice president and director of UC's budget during a press conference telephone call soon after the budget was announced. "We are $30 million worse than expected. It's a big monkey wrench. This is a crisis."

The University was expecting a $225 million shortfall from the Governor's budget and has been taking measures to prepare for such a catastrophe. Cost of living increases have not been granted for the last two years, there has been reduction in maintenance, certain programs on each campus have been eliminated, another early retirement program has been initiated, and 25% was cut out of the funding for the President's Office. But now, the worst case scenario has become reality.

What follows is a Q&A developed from the conversation with Larry Hershman to help you better understand the situation.

Q: *Why do you think the legislature cut an additional $30 million from UC's budget? Is it because the University found money to provide merits and the negative press UC has had regarding audits and top salaries to executives?*

A: We don't know why the legislature has made such a decision. It was done behind closed doors. We are not a party to these decisions, but it is obvious that the mood of the legislature was not very favorable to UC.

Q: *How will UC make up this additional $30 million shortfall?*

A: Very hard to say right now. We've already made big cuts all over the place. Now we have to start major reductions. First of all, we have to do the best we can to make sure that students get the classes they need. We're looking at options — cutting enrollment, cutting administration, cutting services — and we will probably have to do all of this.

Q: *Will the new budget ultimately mean higher fees for students?*

A: As you know, a 24% fee increase or $550 already is in effect; larger fee increases still

(continued on page 6)

"Resusci Annie" waits patiently for a little CPR as America's Band in Blue plays at the Save-a-Life Saturday kickoff at Justin Hermann Plaza.

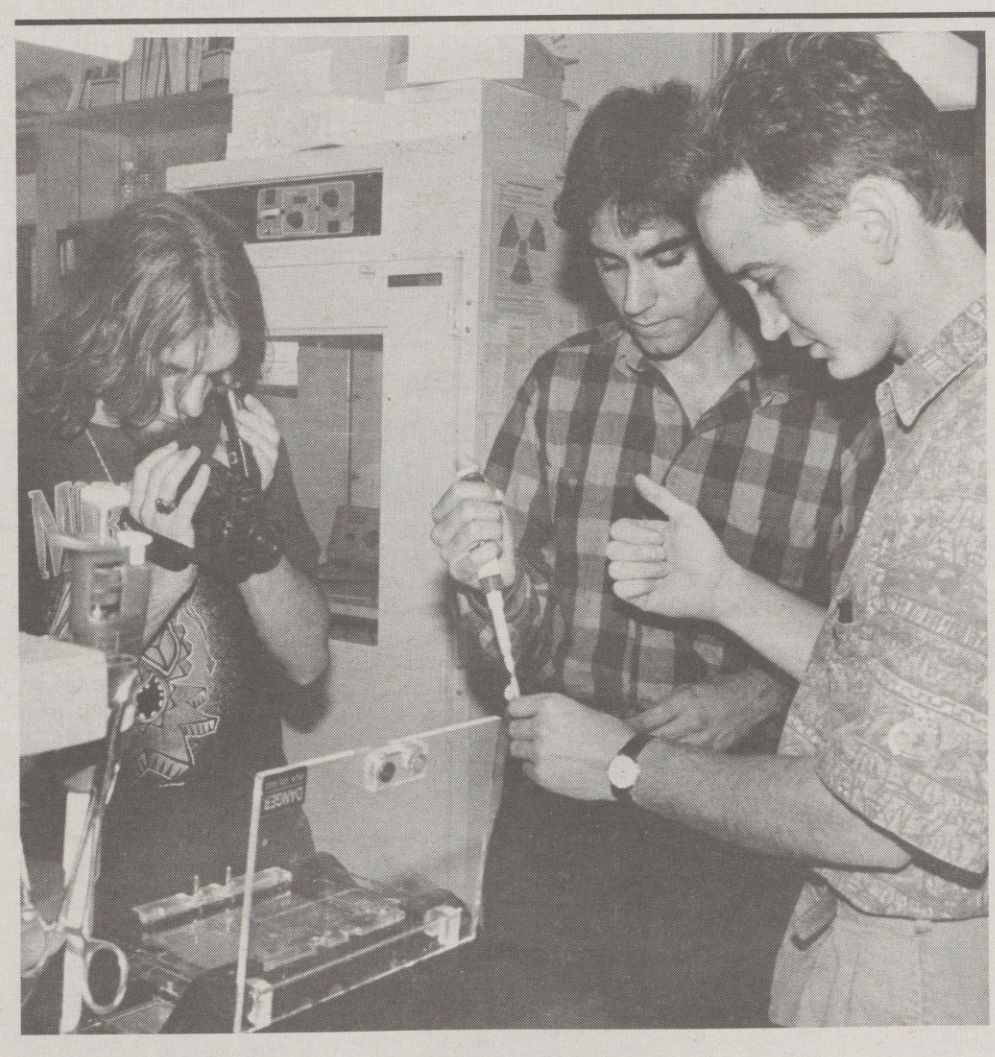
"When Your Heart Stops, You're Dead"

Might sound a little sensational, but none-the-less true, "When your heart stops, you die," unless of course, you have someone around who knows CPR — cardiopulmonary resuscitation — and they perform it quickly.

Bay Area residents are invited to learn life-saving skills and CPR at Candlestick Park, Saturday morning, September 19, before the SF Giants play the LA Dodgers. Called "Save-a-Life Saturday," the fifth annual mass CPR course is sponsored by UCSF's Center for Prehospital Research & Training, the Giants, American Red Cross and others.

The free CPR sessions will be held at 8:30, 9:30 and 10:30 a.m. All participants need to enter at parking lot C, between gates E and F. Stadium parking is $5. A free ticket for the day's game will be given to each participant.

For further information call 1-800-GIVE CPR.



Independent filmmaker Michael Katz (center) takes a stab at electrophoresis, which is used to analyze DNA fragments, during a tour of the Human Genome Project at UCSF. Guiding Katz is staff research associate Guy Disibio (right), while Bart Grady, a student at the Exploratorium, videotapes the tour as part of a film he and fellow students are making to be shown at the "Winding Your Way Through DNA" conference. Katz's company — Remember Tomorrow Productions — is making a documentary on today's biotech explosion.

Human Genome Expert is "CDL"

Sir Walter Bodmer, head of the International Human Genome Organization (HUGO), a group created to foster cooperation among the nations working to exhaustively map human genes, is the Chancellor's Distinguished Lecturer for the Public Understanding of Science. His talk, "The Human Genome Project: A Challenge for Public Understanding," will be on Thursday, September 24, at 3 p.m. in Cole Hall.

Educated in the United Kingdom after his family left Germany just before World War II, Bodmer now is the director-general of the Imperial Cancer Research Fund Laboratories in London.

As head of HUGO, Bodmer promotes efforts to identify and locate the 100,000 or so genes on the chromosomes within the nucleus of each human cell. These genes comprise the blueprints for human life, and a complete map of them is expected to stimulate medical breakthroughs for years to come. In the US this goal is funded by the Department of Energy and by the National Institutes of Health, which have established mapping centers at various institutions, including UCSF.

The Chancellor's Distinguished Lecture has been presented each year since 1980 to recognize outstanding achievement for excellence in science writing and communication. In the United Kingdom, Bodmer chairs the Committee on the Public Understanding of Science, a joint committee of the Royal Society and the British Association for the Advancement of Science.

We're the Leaders in a "Biotech Revolution"

Campus researchers have made milestone contributions to the revolution in genetics, to our knowledge of how our genetic dowries can cause disease, and to the search for ways to prevent, diagnose and treat genetic disease.

Our investigators remain leaders in this revolution. Take Charles Craik and Robert Fletterick for example. They have bypassed molecular evolution by devising a new way to control chemical reactions in the laboratory. They have engineered for the first time an enzyme with a built-in "on-off" switch. The team created the switch, activated by a single atom of metal, by performing molecular surgery on a gene coding for one of the body's digestive workhorses — the enzyme trypsin. The implications of their discovery could lead to everything from designer plants that clean up toxic metals to better laundry detergents.

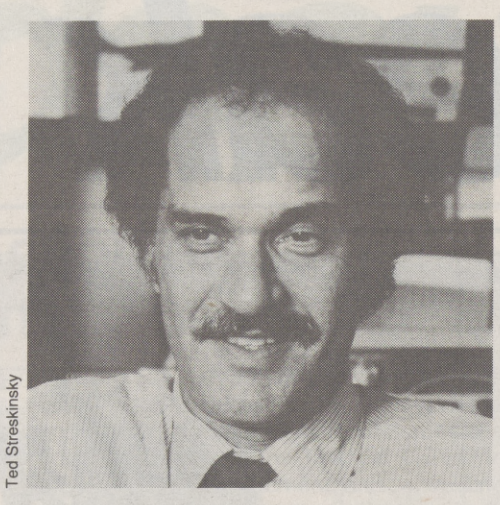
Another team led by Charles Epstein and Pak Chan has cloned into mice copies of the human gene for the enzyme superoxide dismutase (SOD1), which deactivates "free radicals," the harmful by-products of normal oxygen metabolism. The transgenic mice make extra amounts of the enzyme, and as a result experience less swelling and damage of brain tissue following stroke injury. Our bodies make free radicals simply because we breathe oxygen. The molecules damage DNA, proteins and cell membranes. Many scientists suspect that the long-term accumulation of free-radical damage may be implicated in aging and in the onset of cancer.

This year marks the 20th anniversary of recombinant DNA. To highlight this, UCSF and the Exploratorium are sponsoring the symposium "Winding Your Way Through DNA," Friday and Saturday, September 25 and 26. This popular conference has been sold out for weeks, but various satellite locations have been set up to accommodate the masses of people interested in the subject. Please turn to page 5 for a full listing of Bay Area transmission locations.

Gazette

Honors & Awards

Jelveh Lameh: Received the Scientist Development Award for $400,000 over five years from the National Institute of Mental Health. Lameh is assistant research pharmacologist, pharmacy.



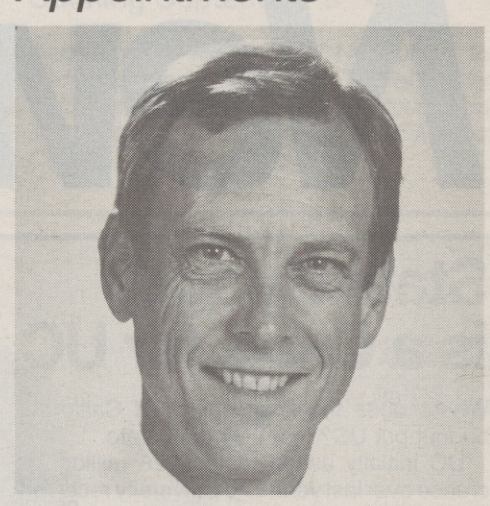
Ted Streskinsky

Allen I. Arieff: Elected a member of the Association of American Physicians. Arieff is professor, medicine; chief, geriatric research, VAMC.

Maurice Rappaport: Voted president-elect, California Psychiatric Association. He also was recognized by the Medical College of Virginia, Virginia Commonwealth University, for his contributions to the field of traumatic brain injury rehabilitation. Rappaport is academic administrator, LPPI.

Samuel H. Barondes, Francis Lu & Lynn Ponton: Elected fellows, American Psychiatric Association. Barondes is professor & chair, psychiatry; director, LPPI. Lu is associate clinical professor, psychiatry; assistant chief, SFGH Inpatient Services. Ponton is associate professor, psychiatry.

Appointments

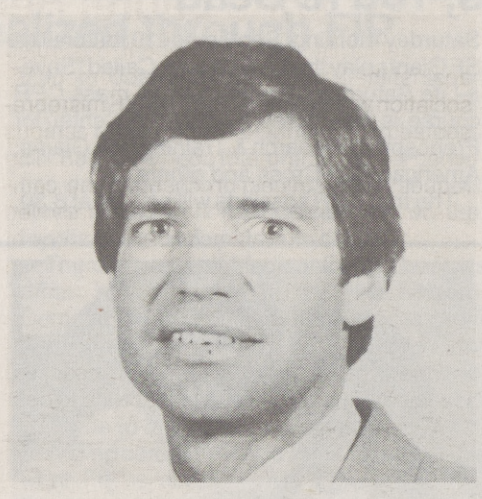


H. John Blossom: Interim associate dean, UCSF Medical Education Program, Fresno. He replaces David Altman, who is taking part in a Robert Wood Johnson Health Policy Fellowship program in Washington, DC. Blossom, who will serve until a permanent replacement for Altman is chosen, is responsible for a system of nine primary care and generalist residencies, the mission of which is to train healthcare professionals to meet the needs of people of the Central Valley. Blossom, a 1970 School of Medicine graduate, trained in the program at Fresno and has served as director of UCSF's family practice residency project at the Valley Medical Center since 1976. He continues as clinical professor & vice chair, family & community medicine.

Mary Lee Gates: Received the Meredith Murphy Scholarship for $3,000 from the Meredith Murphy Cancer Foundation. The scholarship is awarded each year to a student studying to be a nurse in a hematology/oncology practice. She also has received a 1992 Nurses Educational Funds Scholarship for $2,500. Gates is a first-year student in the oncology clinical nurse specialist program with a minor in HIV disease.

Michelle Vignes

Neil Raskin: Voted president-elect of the American Association for the Study of Headache. Raskin is professor & vice chair, neurology.



Philip D. Darney: Named the United States' delegate to the International Planned Parenthood Federation Triennial Meeting in New Delhi in October. Darney is professor, ob/gyn and reproductive sciences, SFGH.

Anne Dowie

David J. Sanchez: Appointed to the Institute of Medicine's Committee on Increasing Minority Participation in the Health Professions. Sanchez is assistant vice chancellor, academic affairs, and professor, family & community medicine.

David Siegel: Named to the Oakland Health & Human Services Commission by Mayor Elihu Harris. Siegel is associate professor, medicine, epidemiology & biostatistics.

John E. Conte, Jr.: Appointed chair, Permanent NIH Study Section for AIDS & Related Research. Conte is clinical professor, medicine, epidemiology & biostatistics, microbiology & immunology.

Lucy Crain: To be honored on September 29 at a fundraiser for Support for Parents with Special Children for her outstanding support to families who have children with disabilities. Crain is clinical professor, pediatrics, family & community medicine.

Fred E. Cohen: Received the Richard E. Weitzman Memorial Award from the Endocrine Society, which is given to a young investigator for outstanding achievements in the field of endocrinology and metabolic research. Cohen is associate professor, medicine, pharmaceutical chemistry, biochemistry & biophysics.

Peter H. Forsham: Received the Albert Renold, MD Award for Outstanding Achievements in the Training of Diabetes Research Scientists from the American Diabetes Association. Forsham is professor emeritus, medicine, pediatrics, Metabolic Research Unit.

Hilde S. Schlesinger: Honored by Ross Hospital at the American Psychiatric Association's annual meeting in May for her pioneering work in mental illness and deafness. Schlesinger is professor emerita, psychiatry; professor, Center on Deafness.

Philip D. Darney: Named the United States' delegate to the International Planned Parenthood Federation Triennial Meeting in New Delhi in October. Darney is professor, ob/gyn and reproductive sciences, SFGH.

Owen Wolkowitz: Received the 1992 Curt P. Richter Prize of the International Society of Psychoneuroendocrinology for his research with steroid hormone effects on behavior and brain biology. Wolkowitz is associate professor, psychiatry.

William Mobley: Appointed to the Neurology B (Subcommittee 2) Study Section of the NIH for a three-year term. He also received the Derek Denny-Brown Neurological Scholar Award from the American Neurological Association. Mobley is associate professor, neurology, pediatrics & neuroscience graduate program.

Michela Reichman: Elected to the board of directors of the Institute on Aging. She is special consultant to the Chancellor, external affairs.

Stephen Sagar: Named the 1992 Merck/Sharpe & Dome Visiting Professor at the Flinders Medical Center in Adelaide, South Australia. Sagar is professor, neurology.

John Engstrom: Received the Golden Toe Award, an honor given by the UCSF neurology residents to an outstanding clinical teacher. Engstrom is assistant professor, clinical neurology.

Robert Fishman: Named editor, *Annals of Neurology*. Fishman is professor, neurology.

John A. Clements: Received one of two 1992 National Medical Research Awards from the Voluntary Health Agency members of the National Health Council. Clements is professor, pediatrics & CVRI.

H. J. Ralston: Voted president-elect, Association of Anatomy, Cell Biology & Neurobiology Chairpersons. Ralston is professor and chair, anatomy.

In Memoriam

Irving Philips: Emeritus professor, psychiatry, he was professor and director of child & adolescent psychiatry from 1975-88 and continued as a professor until 1991. He received the 1985 J. Elliot Royer Award for his teaching, clinical work and service to psychiatry and in 1988 the Agnes Purcell McGavin Award from the American Psychiatric Association for his research in mental retardation and the prevention of childhood psychiatric disturbance. Coming to campus in 1957 as a fellow at LPPI, he was president of the American Academy of Child Psychiatry from 1985-87 and at the time of his death was president of the International Association of Child & Adolescent Psychiatry. Philips co-authored the book, *Child Psychiatry: A Plan for the Coming Decades*, which was the product of a five-year study aimed at revising child psychiatry training and treatment in this country. A member of many professional associations, he was a reviewer and editorial board member of several publications, including the *American Journal of Psychiatry* and the *Journal of the American Academy of Child Psychiatry*. Donations for the establishment of an Irving Philips Memorial Lectureship may be sent to the UCSF Foundation, 44 Montgomery, Suite 285, SF, CA 94143-0248.

Anne Wallace: Assistant clinical professor of social work, psychiatry. She first worked as a clinical social worker and researcher at LPPI on the Child Service and in the Center for the Study of Neuroses from 1970-77. A former teacher at the UCB School of Social Welfare, she most recently worked for the Department of Psychiatry at Kaiser Oakland and maintained a private practice in Berkeley. Memorial donations may be sent to the United Negro College Fund, 1 Sansome St., Citicorp Plaza, Suite 2390, SF, CA 94104, or to the charity of the donor's choice.

Publications

Allen I. Arieff: Co-editor, *Metabolic Brain Dysfunction in Systemic Brain Disorders* (Little, Brown & Co., Boston, 1992). He also is editor, *Metabolic Acidosis & the Circulation* (Oxford University Press, NY, NY, 1992). Arieff is professor, medicine; chief, geriatric research, VAMC.

Contracts & Grants

Information on contracts and grants is made available to this paper through individual departments, researchers or the funding agency.

Adele Clarke & Barbara Koenig: Received $10,000 from the UC Systemwide Biotechnology Research & Education Program to support their project, "UCSF Biotechnology & Society Project." Clark is assistant professor, social & behavioral sciences; assistant professor, history of health sciences. Koenig is assistant professor, medical anthropology.

Bernice Rebecca Zysow: Received $5,000 from the Endocrine Fellows Foundation. Zysow is clinical instructor, CVRI.

New Support Group Forming

Laura Deering-Mayclin, a nurse from LPPI Central Admissions, is starting a new group for families and friends of people suffering from mental illness. "The group will be didactic, but informal," she explains. Topics will include current treatment for mental illness, the rights and responsibilities of families and professionals, the role of the family in treatment, and family stress and coping mechanisms. The group is scheduled to have its first meeting on Wednesday, September 30, from 4 to 5 p.m. in Rm. 373A LPPI. For further information call Laura at 476-7394.

Royer Award Nominations Due

Nominations now are being accepted for the annual Dr. J. Elliott Royer Award, which this year will be presented by UC to a San Francisco or East Bay physician in the field of psychiatry as recognized by the professional medical community.

The Royer Award alternates each year between physicians whose contributions are in psychiatry and neurology.

Those nominated this year should be active in the field of psychiatry in the counties of San Francisco, Contra Cost or Alameda (not necessarily on a full-time basis). Letters of recommendation should be submitted by Friday, October 30, to The Royer Committee, School of Medicine Dean's Office, Box 0410, S 224. For further information call Diana Naisby at 476-2342.

UCSF Newsbreak

UCSF (ISSN0891-6063) Volume 7, Number 16, September 12-25, 1992. Published by the University of California, Third and Parnassus, San Francisco, CA, 21 issues per year — biweekly, except monthly June, July, August and December. Second-class postage paid at San Francisco, CA. Postmaster send address changes to UCSF *Newsbreak*, News & Public Information Services, University of California, San Francisco, 513 Parnassus, Room S 20, San Francisco 94143-0462.

Deadline for the next issue, which will cover September 26 to October 9, will be on **Tuesday, September 15, at 11 a.m.** Please send campus news copy to Allen Balderson, Medical Center news to Dawn Finch, and calendar and gazette items to Michele Firpo, all at Box 0462. Last-minute copy can be taken over the telephone by calling 476-1541. The University of California is an affirmative action/equal opportunity employer.

New Fire Protection Water Supply

This fall, the first phase of a three-year, four-phase project to install a new fire protection water supply system for the campus will begin. When completed, there will be a new source of water connected to each major building.

The first phase will run from September 14 to January 25. Here are some things to be aware of:

- Between September 14 and November 30, a new water pipe will be laid down Medical Center Way from the Woods Building to HSIR. One lane will be kept open for traffic during the day. On weekends and holidays, the road may be closed from 6 a.m. to 7 p.m.
- From November 30 to February 1, pipe will be installed in the loading dock area behind Long Hospital. Traffic may be delayed for up to five minutes. During weekends and holidays, it is possible that traffic may be delayed for up to 50 minutes per hour. One lane of the drive to Central Receiving will be open at all times between 6 a.m. and 7 p.m., except for weekends and holidays when the drive may be closed.
- Pipe installation on the inside of the buildings will include the first floor corridor ceiling of Long Hospital from the south elevator lobby to as far north as Room 163 in Moffitt. The ceilings will be opened and a temporary plastic ceiling will be installed between November 2 and January 25. All corridor work will occur between 11 p.m. and 5 a.m. and work in rooms between 6 p.m. and 5 a.m.
- From late October to mid-March, pipe will be installed on the first floors of HSE, HSW and Medical Sciences, the second floor of HSW and the ground floor of Clinical Sciences. According to Capital Resource Management's Glenn Claycomb, practically all of this work will be in unoccupied areas.
- During January and February, pipe will be tunneled under Saunders Court. A 20-foot pit will be dug. "Be prepared for noise as loud as a diesel truck," says Glenn.

The second and third phases of the project will include extending the main pipe from the School of Nursing into the University Hospital building and lateral pipe work in Medical Sciences, Clinical Sciences and HSW and HSE. *Newsbreak* will keep you informed of future details.

Big Rise in Nursing School's Funding

With budget cuts and all, an 82.5% increase in funding is no small potatoes (notice the spelling). According to Pat Struckman in the School of Nursing Dean's Office, the School's extramural research funding awards rose 82% from $6,332,791 in 1990-91 to $11,520,094 for 1991-92. And that is despite a five percent decrease in the number of proposals which were submitted.

Dean Jane Norbeck explained that this success is most likely due to an "enhanced internal scientific review process" initiated by the School's Office of Research some two years ago. More than half of the investigators who participated in the review have been funded, as compared to 14% of those who did not seek this review.

Parking at SFGH — One Tight Squeeze

If you think parking is bad on Parnassus, just look at what SFGH now is experiencing. Due to construction of a new psychiatric facility along Potrero Avenue, the hospital's largest parking lot will be displaced, creating a loss of some 225 parking spaces, or 26% of all on-site parking. A new 800-space garage now is being planned, but will not be completed until June 1994.

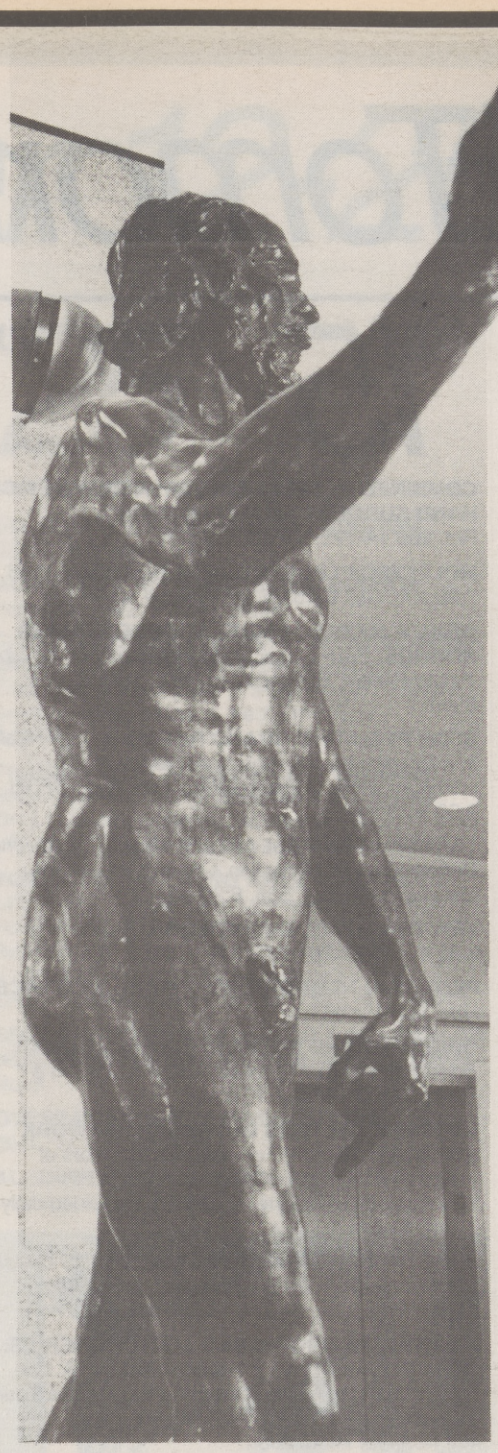
What to do until that time is the big question on the minds of faculty and staff at this satellite location. To help with the squeeze, an Employee Parking Committee came up with an interim parking plan which was put into effect August 31.

The plan sets aside 89 paid parking spaces for medical and administrative staff in two lots on the SFGH campus. It also allocates 90 free spaces for employees at a UCSF lot at 17th and Folsom. Negotiations also now are under way for an additional satellite lot at 15th & Harrison (the Muni parking garage). Free shuttle buses will run from these lots to the hospital between the hours of 6 and 9 a.m., 3:30 and 8 p.m., and 11:30 p.m. and 12:30 a.m. For more information on the shuttles, call the School of Medicine Dean's Office at SFGH, 476-2474 or 206-8505.

In addition, employees who ride to work in carpools or vanpools of three people or more will be able to park in a specially designated lot near Carr Auditorium. Hospital staff are encouraged to join carpools and vanpools or to use public transportation whenever possible. To date, 31 carpools have been formed, most with four or more riders. For further information on vanpools and carpools, call SFGH Administration, 206-8100.

UCSF Council's New Officers

UCSF Council's officers for 1992-93 include (left to right) Eileen O' Connell of Budget & Financial Services, and Loretta Maddux of Parking, both CUCSA representatives; Karen Attix of Arts & Performances, publicity; and Gary Beyrouti of Anatomy, chair. Missing are Ellie Gutman of Restorative Dentistry, vice chair; Rosyln Tuttle of School of Dentistry's Academic Affairs, secretary; Randall Hashimoto of Parking Operations, treasurer; Ruth Weiller of the Chancellor's Office, editor; and Victoria Stephens, also of Parking Operations, Regents' observer.



Saint Jean-Baptist Prechant — one of Rodin's best known sculptures.

Library Boasts Rodin Sculptures

The Chancellor's Committee on Art, Honors & Recognition is sponsoring an exhibit in the UCSF library of 10 works by famed sculptor Auguste Rodin. An extended loan from The Fine Arts Museums of San Francisco, the exhibit will remain in the library for two years until the seismic renovation is completed at the California Palace of the Legion of Honor, where the exhibit normally resides.

Rodin was the most celebrated sculptor of the 19th century. The pieces on display represent different periods, media and styles of the artist's long career.

In conjunction with the Rodin exhibit, a public lecture will be held on Wednesday, October 28, at 5 p.m. in HSW 301. Entitled, "In Rodin's Studio — the Sculptor and the Photographers," the lecture will be given by Albert Elsen, the Walter A. Haas Professor of Art History and curator of the Rodin Sculpture Collection at Stanford.

The Chancellor's Committee wishes to thank Mrs. Agnes Albert, Mrs. Patricia Schindler, and anonymous friends who have made the exhibit possible.

UCSF Wins Laurel Heights Appeal

The California Court of Appeal has ruled against the Laurel Heights Improvement Association which claimed that UCSF misrepresented plans for the Laurel Heights campus when purchasing the property in 1985. The request for an injunction charging the campus with misrepresentation was originally filed six years ago by the association. It was one of three cases filed against UC by the group in attempts to block UCSF from moving some of its academic and research programs to Laurel Heights.

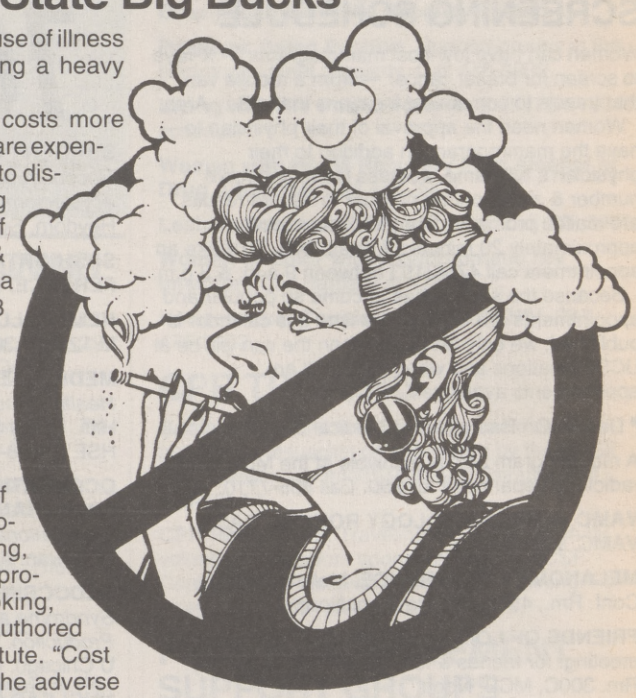
Meanwhile, in the only remaining case, the California Supreme Court has agreed to hear UCSF's request to reverse a recent court order requiring the campus to recirculate the latest Environmental Impact Report (EIR), which details plans for Laurel Heights. UC lawyers argue that the order was not based on any clear legal standard.

In this case, two members of the three-justice Court of Appeal on May 12 upheld a challenge to the EIR filed by the association. The Court of Appeal's ruling concerned only the narrow procedural question of whether the Final EIR was required to be recirculated for additional public comment, not the content of the EIR.

Smoking Costs State Big Bucks

Cigarette smoking — a major cause of illness and premature death — is taking a heavy economic toll as well.

In California alone, smoking costs more than $7.6 billion a year in healthcare expenditures and productivity lost due to disease and early death, according to Dorothy Rice of the School of Nursing's Institute for Health & Aging. This translates into $256 a year per Californian, or $1,543 per smoker. According to Rice, in this state alone, nearly 5 million people, including 220,000 adolescents, still smoke cigarettes. And one in five deaths is attributable to smoking-related diseases.



One way to assess the effect of smoking is to translate into economic terms the human suffering, illness, premature mortality and productivity loss caused by smoking, states the 200-page report co-authored by Wendy Max, also of the Institute. "Cost estimates of smoking translate the adverse health effects of smoking into dollars, the universal language of policy makers," says Rice.

Psychiatry Fall Conference

The Department of Psychiatry is sponsoring a fall conference on Saturday, October 10, on "The Significant Contributions of Developmental Research to Psychotherapeutic Techniques." Fred Pine from the Albert Einstein College of Medicine, Montefiore Medical Center, will be the guest lecturer. His discussion, entitled "A Developmentalist's View of Psychotherapy," will be followed by a talk by Robert S. Wallerstein, UCSF emeritus professor, psychiatry. Fee is $15 for department faculty and trainees and $25 for others, and includes lunch and CE credit. For further information call Debra Moore at 476-7520.

Crime Awareness Brochure

The UCSF Police Department has just completed a new brochure on crime awareness and campus security. Information on campus crime statistics and the campus safety plan are included. The brochures are available at the Police Department, MCB 126; Personnel, Laguna Honda 150; and the Office of Student Relations, MU 126. For further information call Christine Yee at 476-5683.

Detecting Breast Implant Leakages

Volunteers are needed to help the Radiologic Imaging Laboratory evaluate Magnetic Resonance Imaging — MRI — in the detection of silicon breast implant leakages. MRI will be performed in what physician Leon Kaufman describes as an "open air," noiseless unit. For further information call Kaufman at 952-1366.

Today/Tomorrow

12 Saturday

UROLOGY GRAND ROUNDS: *The Use of Proscar in Prostate Cancer.* Joseph Presti, Jr., Uro. *A Research Potpourri.* Gerald Brock, Uro. HSW 300. 8:30-11 a.m.

LOW VISION FORUM: Robert Charm, a gastroenterologist & internist from Walnut Creek, talks about the five "E's" of excellent health & how good health is contagious. September's first Saturday fell on Labor Day weekend, but forums are usually held on first Saturday of each month. Main foyer, ACC. 11 a.m.-1 p.m. Call Frances Neer at 626-5313 for information.*

HEART BEATS

Hearts at Play. A concert featuring local rock, blues & bluegrass artists — D.C. & the Daredevils, James Lee Harris, Jr., Mark Predum & The Northern Light — benefits the UCSF Heart & Lung Transplant Family Fund. $10 ($8 is tax deductible). Cole Hall. 7-10 p.m. Call 476-2606.*

14 Monday

BREAST CANCER SCREENING SCHEDULE

Women can have low-cost mammograms — X-rays to screen for breast cancer — from a mobile van that travels to convenient locations in the Bay Area.

Women need the approval of their physician to have the mammogram, in addition to their physician's full name, address (including room number & zip) & phone number to assure results are mailed promptly. The procedure takes approximately 20 minutes & costs $60. To make an appointment call 476-2193 between 9 a.m. & 3 p.m.

Because the service has become so popular and appointments are filled by the time this calendar is published, we only list dates when the van will be at UCSF locations and when there still are appointments available:

- Dec. 4: On Parnassus at Medical Cntr. Way.

A mammogram also is available at the Mount Zion radiology department for $50. Call 885-7710.

VAMC NEURORADIOLOGY ROUNDS. 2A56, VAMC. 9:30-10 a.m.

MELANOMA CONFERENCE. Melanoma Clin. Conf. Rm., 4th fl., MZ Pavilion. Noon.

FRIENDS OF LOIS AL-ANON MEETING: Closed meeting: for friends & families of alcoholics only. Rm. 300C, MCB. Noon.*

LABORATORY MEDICINE GRAND ROUNDS: *Familial Myocarditis & Human Parovirus B19 Infection.* David Eisenstat, Ped. Sci. Dev. Prog., BTRC. L 535. 4-4:50 p.m.

URORADIOLOGY CONFERENCE. M 464. 5-6 p.m.

UCSF AIDS HEALTH PROJECT MEDITATION & SELF-HYPNOSIS WORKSHOP: Weekly discussion group for anyone dealing with HIV or AIDS in themselves or others. Gazebo Rm., Davies Med. Cntr. 7-9 p.m. Call 476-6445.*

*Open to the public.

15 Tuesday

COMBINED PLASTIC SURGERY/ORTHOPEDIC HAND SURGERY GRAND ROUNDS. Rm. 200 1A-122, VAMC. 7-8 a.m.

MULTIDISCIPLINARY TUMOR BOARD: M 1296. 7:30 a.m. Call Barbara Jim-George, 476-4750.

ORAL & MAXILLOFACIAL SURGERY GRAND ROUNDS: *Early Surgical Management of Cleft Lip/Palate Patient.* Bill Hoffman, Plast. Surg. C 701. 8 a.m.

SFGH PEDIATRIC GRAND ROUNDS: *Child Health in a Developing Country: South Africa.* Peter Lachman, Ped., U South Africa. Carr Aud., SFGH. 8:30-9:30 a.m.

TRANSFUSION RESEARCH FORUM: *Glutathione Deficiency & HIV Infection.* Leonard Herzenberg, Genet., Stanford. L 535. 8:30 a.m.

NEW EMPLOYEE ORIENTATION: S 214. 8:30 a.m.-12:30 p.m. Call 476-1073.

PEDIATRIC NEURORADIOLOGY CONFERENCE. HSE 317. 9 a.m.

OB/GYN GRAND ROUNDS: *Incompetent Cervix: Does It Really Exist?* Julian T. Parer, Ob/Gyn & Repro. Sci. S 1364. 9-10 a.m.

MULTIPLE HELPERS OUTREACH NETWORK SUPPORT GROUP: For victims & survivors of violent trauma. Ages 15 & over. A 222, LPPI. 10 a.m.-noon. Help-line at 759-7923 provided daily, 7 a.m.-10 p.m.*

SFGH MEDICINE GRAND ROUNDS: *AIDS Update from Amsterdam.* Paul Volberding, AIDS Prog., SFGH. Carr Aud., SFGH. 11:30 a.m.

MOUNT ZION BROWN BAG LECTURE SERIES: *Sleep Disorders of Shift Workers.* Kathryn A. Lee, Fam. Hlth. Care Nurs. Sponsored by Campus Tours & Speakers Bureau. Herbst Hall, MZ. Noon. Call 476-4394 for information.*

OVEREATERS ANONYMOUS MEETING: Regular OA discussion meeting. N 717B. Noon.*

VAMC EEG READING SESSION. Bldg. 203, Rm. 2A49, VAMC. 3 p.m.

SFGH GI MEDICINE/SURGERY/RADIOLOGY IMAGING CONFERENCE. Rm. 1X58, SFGH. 4-5 p.m.

NEUROLOGY GRAND ROUNDS: *Neuropathic Syndromes Associated with Paraproteinemia.* Yuen So, Neuro. S 664. 5-6 p.m.

CANCER: WHERE'S THE CURE?

I. Craig Henderson, Med. & Onc., MZ, presents this Community Health Talk. Issei Mem. Hall, Japanese Cultural Cntr., 1840 Sutter. 7-9 p.m. Call Public Service Outreach Prog. at 476-3208.*

16 Wednesday

SURGERY GRAND ROUNDS: *Simultaneous Reconstruction of the Abdominal Aorta & Cholecystectomy: A PRO Perspective.* William H. Heydorn, Surg. Toland Hall. 7-8:30 a.m.

SFGH ORTHOPEDIC SURGERY STAFF CONFERENCE. Rm. 5K8, SFGH. 7:30-9 a.m.

HEMATOLOGY CLINICAL CONFERENCE. M 1296. 7:30-8:30 a.m.

MEDICAL EDUCATION GRAND ROUNDS: *The Health of the Public.* Jonathan Showstack, Inst. Hlth. Policy Stud., Int. Med. & Hlth. Public Prog. HSE 317. 8-9 a.m.

OCCUPATIONAL & ENVIRONMENTAL MEDICINE GRAND ROUNDS: *The Recognition of Occupational Disease in Taiwan.* J.D. Wong, Natl. U Taiwan. A 455. 8-9 a.m.

ENDOCRINE GRAND ROUNDS: *Polycystic Ovary Syndrome as Disregulation of Ovarian Androgen Production.* Robert L. Rosenfield, Ped. & Med., U Chicago. M 1486. 8:30 a.m.

NUCLEAR MEDICINE SEMINAR: *Clinical Use of List Mode for Nuclear Ventriculography.* Stephen Gerard, Nuc. Med. Serv, VAMC, & Lab. Med. LPPI Aud. 8:30 a.m.

THE NEXT DEADLINE

Tues., Sept. 15, is the deadline for items to be listed in the next calendar, which covers **Sept. 26-Oct. 9, 1992 (two weeks).** They must be received in our office in writing by 11 a.m. on that Tueday. Mail your copy to Michele Firpo at Box 0462, call 476-1541, send a fax to 665-8668 or bring it to S 20.

PARNASSUS AL-ANON MEETING: For friends & families of alcoholics. C 517. Noon-1 p.m.*

BROWN BAG LECTURE SERIES: *Spine & the Single Surgeon.* Russ P. Nockels, Neurosurg, SFGH, discusses when to say "yes" or "no" to spine surgery. Sponsored by Campus Tours & Speakers Bureau. HSW 300. Noon. Call 476-4394.*

GRADUATE GROUP IN ORAL BIOLOGY SPECIAL SEMINAR: *What Do Herpes Simplex Virus Genes Do?* Bernard Roizman, Mol. Gen. & Cell Bio., U Chicago. HSW 303. Noon-1 p.m.

OCCUPATIONAL & ENVIRONMENTAL MEDICINE GRAND ROUNDS: *Disability Evaluation.* Peter Lichty, Pacific Occ. Med. Group. Cafe Conf. Rm., 2nd fl., Santa Clara Valley Med. Cntr. Noon-1 p.m.

OCCUPATIONAL & ENVIRONMENTAL MEDICINE GRAND ROUNDS: *The Employee with Chronic Fatigue Syndrome.* Adam Duhan, Alta Bates Med. Cntr. Conf. Rm. 2, Alta Bates Med. Cntr. Noon-1 p.m.

ALCOHOLICS ANONYMOUS MEETING: Closed meeting: alcoholics only. Rm. 300C, MCB. 12:05 p.m.*

MULTIPLE HELPERS OUTREACH NETWORK SUPPORT GROUP: For victims & survivors of violent trauma. Ages 15 & over. Two locations & times: A 222, LPPI, 1-3 p.m., and N 517, 7-10 p.m. Help-line also provided daily, 7 a.m.-10 p.m. at 759-7923.*

PSYCHIATRY GRAND ROUNDS: *Dilemmas in Reshaping San Francisco's Public Mental Health System.* Robert L. Okin, Clin. Psychr. & Psychr. LPPI Aud. 1-2 p.m.

HEAD & NECK TUMOR CONFERENCE. Melanoma Clin. Conf. Rm., 4th fl., MZ Pavilion. 1:30 p.m.

CHILD NEUROLOGY CONFERENCE. M 666. 4:30 p.m.

PATHOLOGY GRAND ROUNDS. HSW 508. 5:30-6:30 p.m.

PEDIATRIC UROLOGY CONFERENCE. M 464. 6:30-7:30 p.m.

17 Thursday

ORTHOPEDIC SURGERY STAFF CONFERENCE. HSW 303. 7-8 a.m.

MEDICINE GRAND ROUNDS: *Recombinant Human DNAse: A New Approach to the Treatment of Cystic Fibrosis & Chronic Bronchitis.* Steve Shak, Pulm. Res., Genentech. Toland Hall. 8-9 a.m.

SFGH NEUROLOGY/NEUROSURGERY CONFERENCE. Rm. 4H2, SFGH. 8-9 a.m.

PEDIATRIC GRAND ROUNDS: *Bone Marrow Transplantation for Congenital Diseases.* Morton J. Cowan, Ped. & Bone Marrow Transplant Prog. S 664. 8-9 a.m.

OPHTHALMOLOGY GRAND ROUNDS: *Pathogenesis of Central Serous Choroidopathy.* Howard Schatz, Oph. S 214. 8:30-10 a.m. Preceded by case presentations: *Cornea.*

SFGH TRAUMA CENTER CONFERENCE. Rm. 4H2, SFGH. 9-10 a.m.

CLINICAL PATH0LOGY CONFERENCE. HSE 336. 10-11 a.m.

FAMILY & COMMUNITY MEDICINE/PRIMARY CARE LECTURE SERIES: *Ambulatory Assessment & Management of Hyperlipidemia.* Robert Baron, Clin. Med., Med., Prim. Care Int. Med. Residency & Cont. Med. Educ. A 455. 10 a.m-noon.

PEDIATRIC TUMOR CONFERENCE. L 34. 11 a.m.-12:15 p.m.

SCHOOL OF MEDICINE NEW STUDENT FAIR

New students are invited to meet with representatives of the various registered campus organizations. Millberry Gym. 11 a.m.-2:30 p.m.

GERIATRIC NOON CONFERENCE: *Update on Congestive Heart Failure in the Elderly.* Albert Camacho, Cardio., SFGH. Herbst Hall, MZ. Noon.

ONCOLOGY CLINICAL CONFERENCE. M 1296. 4 p.m.

MEDICINE/SURGERY ADULT CARDIAC CATHETERIZATION CONFERENCE. L 1361. 4-6 p.m.

WILLIAM WITTER LECTURE ON PAIN

Pathogenic Mechanisms in Painful Neuropathy: Experimental Evidence. Gary W. Bennett, Neuropathic Pain & Pain Measurement Sect., Natl. Inst. Dental Res., NIH. Eighth Witter Memorial Lecture sponsored by Neuro. Surg. & Neuro. HSW 300. 4 p.m. Followed by reception. (Also see Special Neuro. Lecture, Fri., Sept. 18.)

PRIMARY CARE GRAND ROUNDS: *HIV Risk in Homeless Women.* Karen Hauer. A 455. 4:30 p.m.

UROPATHOLOGY CONFERENCE. M 464. 5-6 p.m.

ALCOHOLICS ANONYMOUS MEETING: Closed meeting: alcoholics only. LPPI A222. 6 p.m.*

PLASTIC SURGERY LECTURE/DINNER MEETING: *Remodeling Rhinoplasty.* Wolfgang Muhlbauer, Plast. Surg. Educ. Fndt. Visiting Prof. Fac. Alum. House. Dinner 6 p.m. Lecture 7 p.m. For reservations call 476-3061.*

18 Friday

SPINE CONFERENCE ROUNDS. C 417. 7-8 a.m.

CRI HEMATOLOGY/ONCOLOGY JOURNAL CLUB. M 1296. 8 a.m.

MOUNT ZION MEDICINE GRAND ROUNDS. Herbst Hall, MZ. 8:30-9:30 a.m.

CHILD & ADOLESCENT PSYCHIATRY CONFERENCE: *Scientific Medicine, Social Ills & Child Health.* Richard E. Behrman, Ped., Cntr. Future Children, Packard Fndt. & Ped., Stanford. LPPI Aud. 9:30-11 a.m.

INSTITUTE OF HEALING ARTS & SCIENCES LECTURE: *Being Yourself: The Practice of Presence.* Ed Hirsh, transpersonal psychologist. N 721. Noon. Call 759-9929.*

SFGH PROGRAM IN CELLULAR & MOLECULAR MEDICINE SEMINAR. Rm. 3208, Bldg. 30, SFGH. Noon.

SPECIAL NEUROLOGY/NEUROLOGICAL SURGERY RESEARCH LECTURE: *Does Pain Damage the Nervous System?* Gary W. Bennett, Neuropathic Pain & Pain Measurement Sect., Neurobio. & Anes., Natl. Inst. Dental Res., NIH. HSW 300. Noon.

OVEREATERS ANONYMOUS MEETING. Rm. 300C, MCB. 12:05 p.m.*

ALCOHOLICS ANONYMOUS MEETING: Closed meeting: alcoholics only. C 417. 12:10-1 p.m.*

19 Saturday

INSTITUTE OF HEALING ARTS & SCIENCES WORKSHOP: *Research Your Own Health Condition.* Terry Olesen, health educator, presents this medical self-help workshop. $55-65. MU 111. 9 a.m.-1 p.m. Call Terry at 759-9929.*

21 Monday

VAMC NEURORADIOLOGY ROUNDS. 2A56, VAMC. 9:30-10 a.m.

MELANOMA CONFERENCE. Melanoma Clin. Conf. Rm., 4th fl., MZ Pavilion. Noon.

FRIENDS OF LOIS AL-ANON MEETING: Closed meeting: for friends & families of alcoholics only. Rm. 300C, MCB. Noon.*

LABORATORY MEDICINE GRAND ROUNDS: *Comparative Genomic Hybridization: FISHing for Deletions & Amplifications in Three Billion Basepairs.* Dan Pinkel, Lab. Med. & Mol. Cyto. L 535. 4-4:50 p.m.

IMMUNOLOGY SEMINAR SERIES. HSW 302. 5 p.m.

UROPHYSIOLOGY CONFERENCE. M 464. 5-6 p.m.

VOLUNTEER ORIENTATION: To acquaint new & potential volunteers with opportunities available in the Medical Center at UCSF. LPPI Aud. 5:30-7:30 p.m. Call 476-1196.*

UCSF AIDS HEALTH PROJECT MEDITATION & SELF-HYPNOSIS WORKSHOP: Weekly discussion group for anyone dealing with HIV or AIDS in themselves or others. Gazebo Rm., Davies Med. Cntr. 7-9 p.m. Call 476-6445.*

22 Tuesday

PLASTIC SURGERY GRAND ROUNDS: D & C Conference. Rm. 200 1A-122, VAMC. 7-8 a.m.

MULTIDISCIPLINARY TUMOR BOARD: M 1296. 7:30 a.m. Call Barbara Jim-George, 476-4750.

ORAL & MAXILLOFACIAL SURGERY GRAND ROUNDS: *AIDS & the Surgeon.* William Schecter, Surg., SFGH. C 701. 8 a.m.

SFGH PEDIATRIC GRAND ROUNDS: *Torch Infection.* Peggy Weintrub, Ped. Inf. Dis. Carr Aud., SFGH. 8:30-9:30 a.m.

September 12-25, 1992

TRANSFUSION RESEARCH FORUM: *Viral & Maternal Factors in Vertical HIV Transmission.* Srisakul Kliks, CRI. L 535. 8:30 a.m.

OB/GYN GRAND ROUNDS: *Nurse-Midwifery Care of Vulnerable Populations.* Judith Flanagan, Ob/Gyn, SFGH; Jeanne DeJoseph, Fam. Hlth. Care Nurs. S 1364. 9-10 a.m.

PEDIATRIC NEURORADIOLOGY CONFERENCE. HSE 317. 9 a.m.

MULTIPLE HELPERS OUTREACH NETWORK SUPPORT GROUP: For victims & survivors of violent trauma. Ages 15 & over. A 222, LPPI. 10 a.m.-noon. Help-line at 759-7923 provided daily, 7 a.m.-10 p.m.*

SFGH MEDICINE GRAND ROUNDS: *Prophylaxis of Opportunistic Infections.* Sharon Safrin, Med. & Inf. Dis. Carr Aud., SFGH. 11:30 a.m.

LATINAS & THE MOVEMENT

Latinas & the Reproductive Rights Movement. Luz Alvarez Martinez, Natl. Latina Hlth. Org. Toland Hall. Noon-1 p.m. Call 476-0400.*

OVEREATERS ANONYMOUS MEETING: Regular OA discussion meeting. N 717B. Noon.*

VAMC EEG READING SESSION. Bldg. 203, Rm. 2A49, VAMC. 3 p.m.

SFGH GI MEDICINE/SURGERY/RADIOLOGY IMAGING CONFERENCE. Rm. 1X58, SFGH. 4-5 p.m.

NEUROLOGY GRAND ROUNDS: *Haldol Prevents Brain Injury Produced by PCP & Ketamine.* Frank Sharp, Neuro. S 664. 5-6 p.m.

MOUNT ZION SEIR PUBLIC HEARING

A formal public hearing allowing community members to speak "on the record" & ask questions that UCSF will answer in the final Subsequent Environmental Impact Report regarding changes at UCSF/Mount Zion. Japanese Cultural Center, 1840 Sutter St. 6 p.m. Call 885-7277. (See story on page 8.)*

23 Wednesday

SURGERY MORTALITY & MORBIDITY CONFERENCE. Toland Hall. 7-8:30 a.m.

SFGH ORTHOPEDIC SURGERY STAFF CONFERENCE. Rm. 5K8, SFGH. 7:30-9 a.m.

HEMATOLOGY CLINICAL CONFERENCE. M 1296. 7:30-8:30 a.m.

DERMATOLOGY STAFF CONFERENCE: *What's New in Human Genetics.* Charles Epstein, Ped. & Biochem. & Biophys. HSW 301. 8-9 a.m.

ENDOCRINE GRAND ROUNDS: *Potential Role for Insulin Resistance in Cardiovascular Disease.* Willa Hsueh, Endo., USC Med. Cntr. M 1486. 8:30 a.m.

NUCLEAR MEDICINE SEMINAR: *Functional Imaging with Receptor Binding Radiopharmaceuticals: 99mTc-NGA, a Prototype.* Robert Stadalnick, Nuc. Med., UCD. LPPI Aud. 8:30 a.m.

EVE'S NEW BEGINNING

A Woman's Stop Smoking Clinic. Gloria Soliz, The Last Drag Prog. of Lyon-Martin Women's Hlth. Serv., facilitates this free six-week clinic on Wednesdays offering the proven techniques & personal support needed to stop smoking for good. HSE 317. Noon-1 p.m. Call 565-7676 to pre-register.*

BROWN BAG LECTURE SERIES: *Parkinson's Disease: The Shaking Palsy.* Michael J. Aminoff, Neuro. & Disease/Movement Disorders Clin. Sponsored by Campus Tours & Speakers Bureau. HSW 300. Noon. Call 476-4394.*

HISTORY OF HEALTH SCIENCES COURSE: *Poetry in Medicine II.* David Watts, Med. U 456. Noon-2 p.m.

PARNASSUS AL-ANON MEETING: For friends & families of alcoholics. C 517. Noon-1 p.m.*

ALCOHOLICS ANONYMOUS MEETING: Closed meeting: alcoholics only. Rm. 300C, MCB. 12:05 p.m.*

MULTIPLE HELPERS OUTREACH NETWORK SUPPORT GROUP: For victims & survivors of violent trauma. Ages 15 & over. Two locations & times: A 222, LPPI, 1-3 p.m., and N 517, 7-10 p.m. Help-line also provided daily, 7 a.m.-10 p.m. at 759-7923.*

PSYCHIATRY GRAND ROUNDS: *Recruitment into Psychiatry: Our Residents, Our Future.* Carolyn B. Robinowitz, American Psychr. Assn. LPPI Aud. 1-2 p.m.

HEAD & NECK TUMOR CONFERENCE. Melanoma Clin. Conf. Rm., 4th fl., MZ Pavilion. 1:30 p.m.

SEMINARS IN BIOLOGY SERIES: *Sec Protein Mediated GTP Hydrolysis Regulate Vesicle Budding.* Randy Scheckman, Biochem. & Mol. Bio., HHRI, UCB. HSW 300. 4 p.m.

CHILD NEUROLOGY CONFERENCE. M 666. 4:30 p.m.

UROLOGIC PHYSIOPATHOLOGY CONFERENCE. M 464. 5-6 p.m. Followed by Campbell's *Urology* reading, Chapters 13 & 15.

PATHOLOGY GRAND ROUNDS. HSW 508. 5:30-6:30 p.m.

24 Thursday

ORTHOPEDIC SURGERY STAFF CONFERENCE. HSW 303. 7-8 a.m.

MEDICINE GRAND ROUNDS: *Metabolic Disturbances & Wasting in AIDS.* Carl Grunfeld, Med. Cole Hall. 8-9 a.m.

SFGH NEUROLOGY/NEUROSURGERY CONFERENCE. Rm. 4H2, SFGH. 8-9 a.m.

PEDIATRIC GRAND ROUNDS: *Updates in Pediatric Liver Transplantations.* Jean C. Emond, Surg. & Ped. Liver Transplant Prog. S 664. 8-9 a.m.

OPHTHALMOLOGY GRAND ROUNDS: *Acute Retinal Necrosis: Current Diagnosis & Management.* Mark Blumenkranz, Oph., Stanford. S 214. 8:30-10 a.m. Preceded by case presentations: *Eye Pathology.*

SFGH TRAUMA CENTER CONFERENCE. Rm. 4H2, SFGH. 9-10 a.m.

FAMILY & COMMUNITY MEDICINE/PRIMARY CARE LECTURE SERIES: *Hepatitis.* Teresa L. Wright, ICN. *Medi-Cal/Medicare National Health Insurance.* Joseph Barbaccia, FCM, Mem. Clin. & Alzheimer's Cntr. A 455. 10 a.m-noon.

NEUROLOGY/NEURORADIOLOGY CONFERENCE. S 1364. 10-11 a.m.

PEDIATRIC TUMOR CONFERENCE. L 34. 11 a.m.-12:15 p.m.

MISSION CENTER BROWN BAG SERIES: *Back Problems Shouldn't Be a Pain.* Robert Minkowsky, Med. & Irene Minkowsky, Phys. Back Inst. Rm. 125, MCB. Sponsored by Campus Tours & Speakers Bureau. Noon-1 p.m. Call 476-4394.*

ORAL BIOLOGY 220 FACULTY RESEARCH SEMINAR: *Protein Engineering of Trypsin.* Charles S. Craik, Pharm. Chem. & Biochem. & Biophys. S 664. Noon.

CHANCELLOR'S DISTINGUISHED LECTURE

The Human Genome Project: A Challenge for Public Understanding. Sir Walter Bodmer, Imperial Cancer Fund, London. Cole Hall. 3 p.m. (See story on page 1.)*

MEDICINE/SURGERY ADULT CARDIAC CATHETERIZATION CONFERENCE. L 1361. 4-6 p.m.

NEURORADIOLOGY GRAND ROUNDS. HSW 303. 4 p.m.

ONCOLOGY CLINICAL CONFERENCE. M 1296. 4 p.m.

PRIMARY CARE GRAND ROUNDS: *Colon Cancer.* Michael Darby, Med. A 455. 4:30 p.m.

NEUROSURGERY GRAND ROUNDS. HSW 302. 5-6:30 p.m.

RADIOLOGY GRAND ROUNDS: *The Role of Ultrafast CT in Screening for Asymptomatic Coronary Artery Disease.* Bruce Bundage, Med. & Rad. Sci., UCLA. HSW 301. 5:15-6:15 p.m.

ALCOHOLICS ANONYMOUS MEETING: Closed meeting: alcoholics only. LPPI A222. 6 p.m.*

UROLOGY JOURNAL CLUB. 2 Belmont Ave., SF. 6:30 p.m.

25 Friday

SPINE CONFERENCE ROUNDS. C 417. 7-8 a.m.

CRI HEMATOLOGY/ONCOLOGY JOURNAL CLUB. M 1296. 8 a.m.

MOUNT ZION MEDICINE GRAND ROUNDS. Herbst Hall, MZ. 8:30-9:30 a.m.

CHILD & ADOLESCENT PSYCHIATRY CONFERENCE: *Current Concepts in the Diagnosis & Treatment of Convulsive Phenomena in Children.* Bruce O. Berg, Neuro. & Ped. LPPI Aud. 9:30-11 a.m.

PHARMACEUTICAL CHEMISTRY SEMINAR: *Structure & Function of Bacterial & Mammalian DNA Methyltransferases.* Norbert O. Reich, Chem., UCSB. S 1364. 11 a.m.

INSTITUTE OF HEALING ARTS & SCIENCES LECTURE: *Discover the Natural Healing Art of Reiki: Awaken the Healer Within.* Laisha Beeson, Reiki master. N 721. Noon. Call 759-9929. (Followed by two-session workshop on Fri., Sept. 25, & Wed., Sept. 30. 6:30-10 p.m. C 130.)*

SFGH PROGRAM IN CELLULAR & MOLECULAR MEDICINE SEMINAR. Rm. 3208, Bldg. 30, SFGH. Noon.

OVEREATERS ANONYMOUS MEETING. Rm. 300C, MCB. 12:05 p.m.*

ALCOHOLICS ANONYMOUS MEETING: Closed meeting: alcoholics only. C 417. 12:10-1 p.m.*

WINDING YOUR WAY THROUGH DNA

A symposium on the challenges & the scientific significance of the DNA revolution. Fri., Sept. 25, 5 p.m.-midnight. Sat., Sept. 26, 8 a.m.-5:30 p.m. Original symposium site (Palace of Fine Arts Theatre) is sold out, but seats are available in Cole Hall, HSW 300 & HSW 303. Call 476-5808 to register & for information.

DEVELOPMENT & TRAINING

For further information call 476-4032.

Supervisor's Training Program. Tues., Sept. 22, 29, Oct. 6. 8:30 a.m.-4:30 p.m. Tues., Oct. 13. 8:30 a.m.-12:30 p.m. $65.

Materiel Management WorkshoP: Module 1. Fri., Sept. 25. 8:30 a.m.-12:30 p.m. $20.

Employment Discrimination Law Update for Supervisors & Managers. Wed., Sept. 30. 8:30 a.m.-noon. $20.

Medical Terminology: An Introduction. Thurs., Oct. 1 & 8. 9-11:30 a.m. $55.

Travel Expense Processing. Thurs., Oct. 1. 1:30-4:30 p.m. $20.

Materiel Management Workshop: Module II. Fri., Oct. 2. 8:30 a.m.-12:30 p.m. $20.

Supervisor's Guide to Performance Evaluation. Wed., Oct. 7. 8:30 a.m.-4:30 p.m. $25.

General Ledger & Accounting. Thurs., Oct. 8. 8:30 a.m.-4 p.m. $35.

Personnel Policies for Supervisors. Thurs., Oct. 8, 15, 22. 1-4 p.m. $25.

Interview & Selection for Supervisors & Managers. Tues., Oct. 13. 1-4:30 p.m. $20.

Survival Skills for the Administrative Assistant. Wed., Oct. 14, 21, 28. 8:30 a.m.-noon. $45.

Writing for Results. Wed., Oct. 14, 21, 28. 1-4 p.m. $55.

CONTINUING EDUCATION

MEDICINE

For program information call 476-4251, registration 476-5808.

Cardiology Update. Quail Lodge, Carmel, CA. Oct. 1-3.

New Approaches to the Diagnosis & Treatment of Primary Immune Deficiency Diseases. Marriott Hotel, SF. Oct. 9.

The Significant Contributions of Developmental Research to Psychotherapeutic Technique: A Developmentalist's View. Laurel Heights Conf. Cntr., SF. Oct. 10. (See story on page. 3.)

Occupational & Environmental Medicine — Session II. Miyako Hotel, SF. Oct. 19-30.

Advances in Occupational & Environmental Medicine. Miyako Hotel, SF. Oct. 26-30.

21st Annual Topics in Emergency Medicine. Ritz-Carlton Hotel, SF. Oct. 26-30.

Signs of Change. For therapists who work with deaf people. Hyatt, Fisherman's Wharf, SF. Oct. 28-31.

Management of Cardiac Arrhythmias: Practical Aspects. Fairmont Hotel, SF. Oct. 31.

The UCSF Otolaryngology Update: 1992. Ritz-Carlton Hotel, SF. Nov. 5.

DENTISTRY

For locations & information call 476-1101.

Simplify Your Crown & Bridge Appointment Workshop. Sept. 19.

Dental Radiography: Current Topics & Troubleshooting. Sept. 26.

Update on Aesthetic Restorative Dentistry. Oct. 3.

Pharmacology & Therapeutics in Dental Practice. Oct. 16.

Clinical Solutions for Complete Dental Problems. Oct. 17

Endodontics in the '90s. Oct. 23.

Advanced Crown, Bridge & Implant Temporization. Oct. 24.

AIDS/ARC/HIV+ SUPPORT

Anonymous & confidential caring, support & training for people with AIDS, those who have tested HIV positive & others affected by the epidemic. Sponsored by UCSF AIDS Health Project. Call 476-6430.*

If you are a woman who is HIV positive & can't get medical care because of practical needs, call Marisa Davis at the Women's Advocacy Program at 476-0654 for help with child care, transportation, medical care & social services. "Hablamos Español."*

Individual Risk Assessment & Referrals. By appointment.

Facilitated 8-week Groups. For anyone affected, at risk or infected.

Drop-in Group for the Recently Tested.

Positives Being Positive. Support groups in the community meet regularly. Call 476-3902.

Living with HIV Public Forums. Call 476-6430 for schedule.

Women with HIV In Recovery from Alcohol or Drug Addiction. Call 476-3902.

Lesbian Couples Living with HIV. Call 476-3902.

Women of Color with Asymptomatic HIV Infection. Call Barbara at 476-3902.

Heterosexual Couples Living with HIV. Call 476-3902.

CPR TRAINING

Basic CPR. A 3-4 hour course in basic cardio-pulmonary resuscitation sponsored by the UCSF CPR Center. For information & registration call 476-1817.*

CPR Road Show. Traveling CPR instruction by volunteer instructors sponsored by the UCSF Center for Pre-Hospital Research & Training. For more information call Laura, 476-8502.*

FAMILY BEREAVEMENT SUPPORT GROUPS

If you have lost a child to a serious illness, the Family Bereavement Program at Mount Zion offers support groups for parents, siblings or grandparents that meet weekly for 12 sessions. Call Laura Koehler at 885-7529 for time & date of next session.

SHAPEDOWN WEIGHT MANAGEMENT PROGRAMS

SHAPEDOWN Weight Management Programs offer support & training for overweight children, adolescents & their families. The groups, conducted by an interdisciplinary team of pediatric obesity specialists, avoid dieting & help families develop healthier lifestyles. Meetings take place on Thursdays in the late afternoon or early evening. Call 476-4575 for information on groups starting in September.

Fun Zone

Millberry Class Registration Starts Sept. 26

Take note: Registration for Millberry's big selection of fall recreation and fitness classes begins Monday, September 28. A sampling of these classes will be offered at no charge from Saturday, September 26, through Friday, October 2. For a complete catalog of classes or a schedule of free classes, stop by the Millberry Fitness Desk.

Other things to think about:

- **Sell your handiwork.** There are still spaces available for EMPACT!'s 3rd annual Holiday Crafts Faire on Thursday, December 3. If you have handmade crafts to sell, call 476-2675 right away.
- **Renaissance Faire.** Weekends through October 11. Save on adult and child tickets, available at the Millberry Central Desk.
- **Trekker Festival.** Six Star Trek movies, Wednesday, September 30, through Friday, October 2. One admission gets you two movies every evening. Also, raffle for all six movie posters. Call Arts & Performances hotline for details, 476-2542.
- **Marin Surf, Bike, BBQ weekend.** October 3 and 4. A weekend of surfing (beginners fine), boogie boarding, kayaking, hiking, biking and partying. Saturday in the Bolinas breakers, then on to Mt. Tamalpais. Camp at Pan Toll Campground. More of same on Sunday. Call Outdoors Unlimited, 476-2078.

Budget *(from page 1)*

are being considered. Undergraduate study on an average now costs each UC student $3,036 a year. Compare that to just three years ago when the average cost was $1,820. We are still behind, however, comparable institutions such as SUNY Buffalo, Michigan, Illinois and Virginia.

Q: *What about reducing enrollment?*

A: We will take all students this year, but this crisis does mean that UC is going to have to reduce enrollments over time.

Q: *Does reducing enrollments fit into UC's master plan?*

A: No, it doesn't, but a long-term perspective is needed now. We have to decide if we want to opt for limiting enrollment due to budgetary considerations. We could have a reduction of anywhere from 7,500 to 15,000 students over the next couple of years.

Q: *Does this mean keeping out students from other states?*

A: If we keep students out from other states, we lose money. Nonresidents pay for their costs. If we cut them out, we are cutting out money.

Q: *Who will decide how the cuts will be handled? Will it be the chancellors or an Office of the President decision?*

A: There will be Office of the President policies to follow, but each chancellor will have to decide where cuts are to be made on that campus.

Q: *How soon will we see more layoffs? Are tenured faculty safe?*

A: We've been seeing layoffs on many campuses all along. And we will wait to see what the early retirement plan and the new TRIP plan bring us before deciding on other layoffs. We know that there are 8,000 people who are eligible for early retirement, but as yet, we don't know how many of those people will take it.

We will have to reduce the size of our faculty. We won't see layoffs this year, but yes, certainly over the next couple of years.

Q: *Will UC again entertain the idea of an across-the-board 5% pay cut?*

A: That was a proposal the Governor implemented for state employees.

Q: *But has it been ruled out for UC?*

A: While currently there are no plans for across-the-board cuts, all options remain open.

Q: *Will one campus be more vulnerable than another in terms of absorbing the cuts?*

A: It's very hard to say right now.

Q: *Does this mean we will have to close a UC campus?*

A: No

Q: *Is the idea for a 10th campus dead?*

A: The Regents will be talking about that after the first of the year, but one cannot be very optimistic about it happening right now.

Q: *Can you please put this budget crisis in perspective, let's say in terms of a few years ago?*

A: UC virtually is getting slightly less money from the state than it did in 1987, given that there has been a 24% inflation rate and that UC now has 12,000 more students than it did six years ago. Over the last two years, UC has had to absorb a $700 million shortfall. That is a lot to absorb in just two years. We have to try to absorb $450 million in just one year now with the new budget.

Chili Cook Off — Hot! Hot! Hot!

From Sizzling Sultry Chili to Buzzard's Breath Chili — the selection was nearly endless at EMPACT!'s first "Chili Cook Off" on September 3. By far one of the most popular events ever held in Saunders Court , the Cook Off raised almost $1,000 for employee programs and events. The big chili recipe winner was Information Technology Services' Richard Bernstein. Special thanks to sponsors Hotel Richelieu and Gaylord's India Restaurant.

Q: *What percentage of UC's total budget is $1.9 billion?*

A: We have a total budget for UC of $7 billion from all sources. State money now is about $1.9 billion, our next single biggest source is from our teaching hospitals which is about $1.6 billion and then another $3.5 billion from a variety of other sources, almost all of which is restricted to specific uses.

Q: *What happens now? When will we know what each campus has to do?*

A: The Regents may have a firm plan as early as their September 17 meeting.

TRIP Deadline Extended

Meanwhile, the deadline for TRIP — Time Reduction Incentive Program — has been extended to Wednesday, September 30, allowing employees to sign up and have it effective beginning October 1. If your department manager does not have TRIP application forms, call Personnel at 476-0406. Xerox copies are acceptable.

All unions with the exception of the California Nurses Association have agreed to the conditions of TRIP. General questions regarding the program should go to Mary Henry at 476-2789.

As of this writing, 25 UCSF employees have opted to take TRIP beginning September 1. The number of people taking TRIP for the entire UC System will be known by mid-November.

Transition to New Chancellor

Krevans Reduces Vice Chancellors to Four

Chancellor Julius R. Krevans has announced an administrative reorganization to deal with the serious budgetary and space issues facing the campus, and to aid in the transition to a new UCSF Chancellor.

The reorganization, effective October 1, reduces the number of vice chancellors from six to four: Senior Vice Chancellor David J. Ramsay — Academic Affairs, Senior Vice Chancellor Herbert W. Suelzle — Administration, Vice Chancellor Thena Trygstad — Staff & Student Human Resources, and Vice Chancellor Bruce W. Spaulding — University Advancement & Planning, all of whom will report directly to the Chancellor.

The reorganization also establishes a new unit reporting to Krevans, which will include budget and eventually strategic planning. In addition, the recruitment for a Vice Chancellor for Student Academic Affairs has been discontinued.

"I believe it is important for me to be personally involved in the difficult decisions UCSF will have to make this year as we implement our budget reduction plans. This is the worst year in four years of budgetary constraints," said Krevans, "and it will take all of our energy and attention to protect the campus' future."

In addition, Krevans indicated that the transitional organization will give wide latitude for administration options to the new Chancellor who is expected to be named by the Board of Regents next spring and to take office July 1, 1993.

Ripple Scholarships Go To Beckman, Guyette-Smith

Nancy Beckman, a clinical nurse on 9 Long, and Julie Guyette-Smith, a student nurse in the CV ICU, are the first recipients of the Helen B. Ripple Scholarship.

The scholarship fund was established last year in honor of Helen for her 10th anniversary at the Medical Center.

Each year, two $1,000 scholarships will be awarded, one to a current RN pursuing further nursing education and one to a student nurse or employee enrolled in nursing school.

Nancy, a clinical nurse III, has worked at UCSF for nine years. Over the years she discovered how much she enjoys teaching, having served as a preceptor for new grads and new hires on many an occasion. She also served as one of last year's group preceptors for the School of Nursing's MEPN students (see article below.)

Thus, she has decided to go back to school to become a nurse educator. She currently is working on her master's at USF — she has three semesters to go — while continuing to work on the Kidney Transplant Unit.

Julie moved to San Francisco from San Luis Obispo to attend San Francisco State — with the expectation of entering the nursing program there. Unfortunately, she found she was faced with a five-year waiting list. Thus, she applied and was accepted into the nursing program at USF.

The cost difference between the two programs is major, so the scholarship is very welcome, says Julie. Julie has worked at UCSF for 2 1/2 years, first in the CVS and now in the CV ICU as a senior nursing assistant. She has a year-and-a-half remaining in the USF program, and plans to continue working part-time in the CV ICU in between classes.

The Helen B. Ripple Scholarship was established through contributions from colleagues, says assistant director of nursing Jane Hirsch. But the fund is always open to further donations. In fact, since the fund began it has been bolstered by memorial gifts made in the name of nursing. Jane notes that if patients, families or other parties ask how they can recognize nurses, this is an excellent way.

Auxiliary Fashion Show Plays to Sold-Out Crowd at Ritz-Carlton

Nearly 500 people — many of them proud parents from UCSF — packed into the ballroom of The Ritz-Carlton on August 31 to watch a truly adorable fashion show sponsored by the Auxiliary.

There were 94 models, most of them under 10 and many under 5, who traipsed and skipped and twirled down the runway with surprising aplomb.

Oh, there were a couple of unchoreographed incidents — including one little boy who interrupted his promenade by lying face down on the runway. And another tot who reached the end of the runway and broke into tears. But the whole production — minor mishaps included — was altogether charming.

Auxiliary members Holly Suich and Barbara Crane co-chaired the event and produced the fashion show. If you're wondering how on earth they kept dozens of small children organized and on cue, the credit largely goes to a group of student volunteers overseen by Volunteer Services' Vicki Kleemann.

How much did the Auxiliary make from the proceeds? The checks are still coming in, but at least $20,000 — all of which will go toward the Auxiliary's Special Projects in the Medical Center. Again, The Ritz-Carlton donated both the ballroom and the lunches for the occasion, making such a profit possible.

(Above) Leona Hansen Biddle's grandchildren, Stephanie (left) and Elizabeth Nealey, model outfits by "In Stitches," designed by Leona's daughter-in-law. (Left) Little Kaitlin Holl, consoled byJennifer Panou, picked the end of the runway for a good sob. Both are children of friends of Auxiliary members.

"Friendly Skies" Just Got Friendlier

UCSF is one of four medical and charitable institutions in the Bay Area chosen by United Airlines to be part of a partnership which allows free air travel to children who require vital medical treatment in another city.

The partnership, which also is designed to fulfill a special wish for a child with a life-threatening illness, is an expansion of United's charitable travel program. For 1992, the program initially allows 50 travel certificates to each institution — UCSF, Children's Hospital-Oakland, Lucile Salter Packard Children's Hospital at Stanford, and Make a Wish Foundation.

United's Stephen M. Wolf, chair and chief executive officer, says the four institutions are in the best position to make the medical and economic determination of who is most in need, enabling the airlines to reach out and offer assistance to children and families throughout the Bay Area.

Keating, Treat, Coté & Patton Take Leading Roles in MEPN Program

If you've been noticing large groups of students gathered around 8 Long's Karen Keating, 11 Long's Julie Treat, 7 Long's Mary Coté or the NICU's Fran Patton, here's the scoop. These four are serving as group preceptors for the School of Nursing's Master's Entry Program in Nursing (MEPN).

For 24 hours a week, each of these preceptors has been leading groups of seven or eight students through the rudiments of nursing, partly in a skills lab and partly on the units. This is in preparation for the next phase — when the students will be matched one-on-one with clinical nurses and "work" their schedules with them, day or night.

This is the second class of MEPN students. There are 30 students, all embarking on a three-year program leading to a master's degree in specialized nursing. All 30 entered the program with at least a bachelor's degree — but not in nursing. These are career-switchers, leaving other jobs to become nurses.

The first year is very intense, explains coordinator Scott Ziehm. It packs in all the elements of a two-year nursing program. The final two years are devoted to specialized study toward a master's.

One of the principles of the accelerated learning during the first year is to immediately place the students with skilled nurses in a clinical setting for part of each week. Thus, what is learned in the classroom gets instant reinforcement with actual experience.

The members of the first MEPN class, which began in June of 1991, have now completed their RN training. In fact, after taking their boards in July, many have taken nursing jobs while they continue their coursework.

A majority of students in both classes intend to become nurse practitioners, says Scott — which is right in line with a current trend in nursing.

Prostate *(from page 8)*

prostate.

"When I first heard the diagnosis, I was deathly afraid," he says. "But the more information I got, the better I felt." Today he says he considers himself among the lucky. His cancer was caught in the early stages.

Last January, Anthony had his prostate removed at SFGH. Today he is cancer-free and is scheduled for regular check-ups to make sure the disease does not return.

Anthony says he believes many men are misinformed — or uninformed — about prostate cancer. They are not taught at an early age to get regular check-ups. To help raise awareness, he has created the Prostate Foundation, which will put out a newsletter on the disease.

In the way of advice, Anthony has this to say to men in the risk groups: "Go in for early testing. It's no big deal and it could save your life."

SEIR *(from page 8)*

quiring additional property for these structures.

Also, the revised plan would replace the existing two-story outpatient sevices building with a new five-story Clinical Cancer Center. The original plan called for renovating and adding two stories to create a four-story building.

Following the hearing, the next step will be to prepare a final SEIR to submit to the UC Regents for approval, hopefully in time for their November meeting.

Bill Kerr Heads Two AAMC Groups

Medical Center director Bill Kerr is figuring prominently in the Association of American Medical Colleges (AAMC) with two key chairmanships.

He is the new chair of the AAMC Advisory Panel for Strategic Positioning for Health Care Reform. The panel is charged with helping the AAMC identify and develop its role in the healthcare reform debate, especially in relation to the role of education and research in any healthcare reform proposal.

He also has been nominated chair-elect of the AAMC Council of Teaching Hospitals, the principal source of hospital input on AAMC policies and directions. Bill will assume the chairmanship in January, 1993.

Connie Little is New Chair of Home Care Group

Connie Little, director of Mount Zion UCSF Home Care, is the new chair of the California Association of Health Service At Home. Connie describes CAHSAH as "the voice of home care in California." It is the largest state association of home care agencies in the nation, representing more than 500 home care providers. Over 95 percent of California's licensed and Medicare certified home health agencies belong to CAHSAH.

Lois Weiss, also on the staff of Mount Zion UCSF Home Care, recently was designated a Certified Diabetes Educator by the National Certification Board for Diabetes Educators. The certification is granted based on education, experience and a written examination.

Bill Kerr's Turn On the Hot Seat

At last year's Oktoberfest & Krevans Roast sponsored by the Auxiliary, Medical Center director Bill Kerr seemed to have no trouble dishing up dirt on the Chancellor.

What was it Bill said part way through the roast?... "I'm surprised people paid so much money to hear these things being said about Julie, since they can hear the same stuff in the halls every day."

Well, this year the tables are turned. On Tuesday, September 29, the Oktoberfest is returning — but this year the main course on the menu is billed as "Roast of William B. Kerr."

Chancellor Krevans of course will help with the roasting, as will old Kerr cronie Bill Hamilton, former vice dean of the School of Medicine, and David Melnick, chair of the Mount Zion Board of Trustees.

These three will be joined by numerous other Kerr acquaintances who know a lot of funny and probably embarrassing stuff about him. And, being an Official Roast, it will be legitimate to say it.

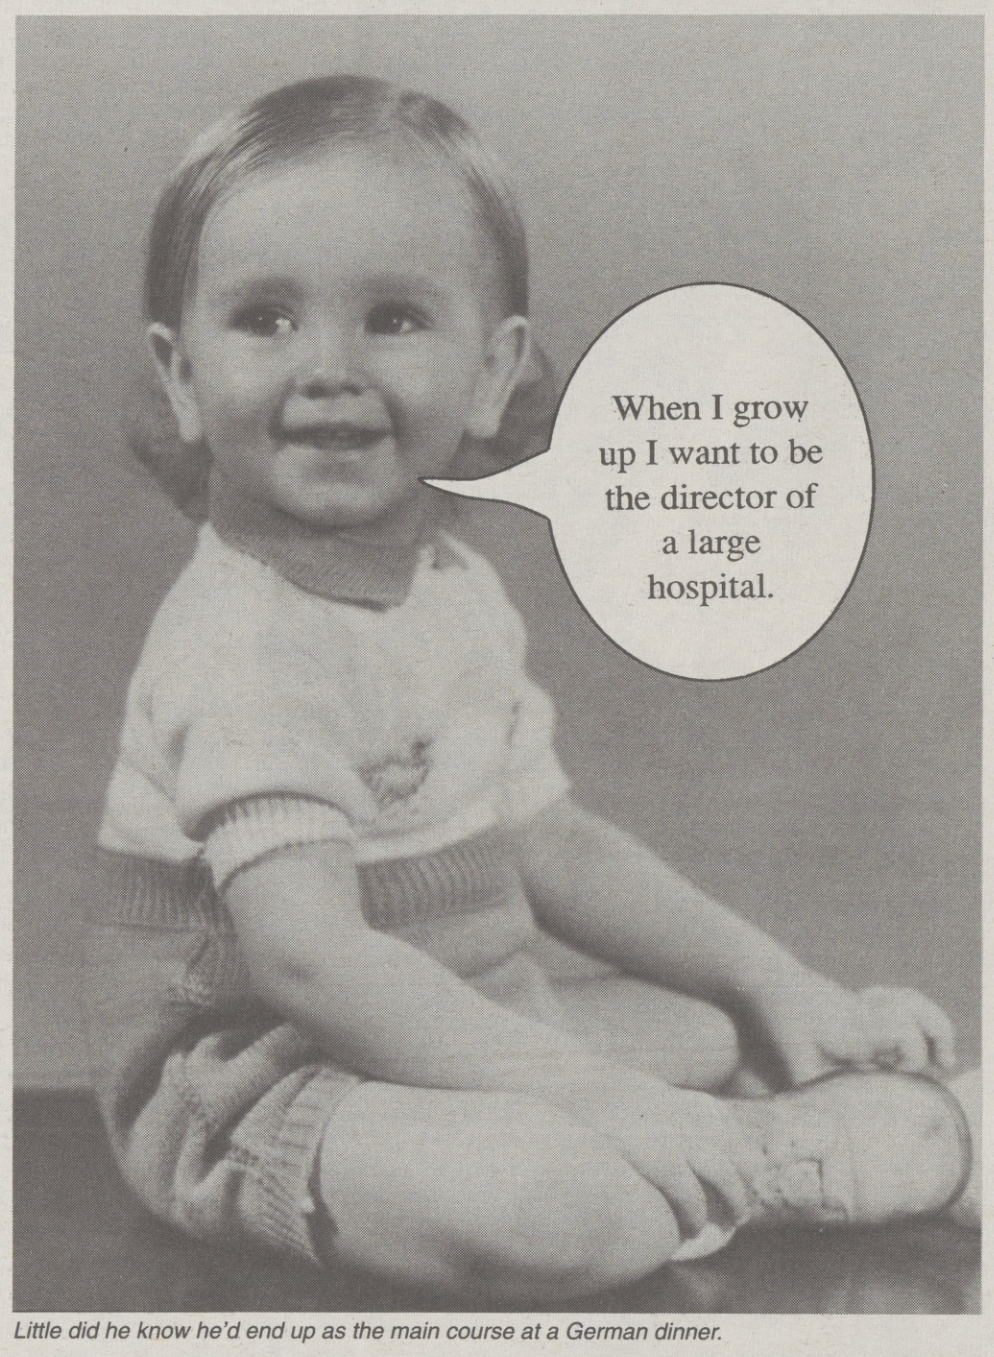
For $75, you get the Bill Kerr dish to nourish your funny bone. But you also get a hosted bar, a German-style feast and live music to accompany your sausage-eating.

Everyone is invited to this event. In fact, the more people, the more chortling — and the better the roast. The event takes place after work in the Millberry Conference Center and gym. There's a cocktail hour from 6 to 7 p.m., followed by dinner, the roast and a raffle drawing.

You can make reservations by sending a check made out to "The Hospitals Auxiliary" to the Auxiliary office at Box 0208 by Tuesday, September 22, or stop by the office at M 182. Call 476-4906 for further information.

The proceeds from the event will benefit the Pediatric Day Treatment Center, which will be part of the Ambulatory Care Center. The Center will centralize several services, including pediatric oncology, hematology, immunology, rheumatology and renal medicine, in a space designed for children.

The Auxiliary's Patricia Knight, who chaired last year's event, is back as this year's Oktoberfest chair. Three corporate sponsors, American Shared Hospital Services, Elekta Intruments, Inc., and Johnson & Johnson Hospital Services, Inc., are underwriting the event.



Little did he know he'd end up as the main course at a German dinner.

Know A Candidate for a Prostate Exam?

In conjunction with National Prostate Cancer Awareness Weeks in September and October, UCSF will offer free prostate cancer screening exams on two dates:

- Wednesday, September 30, 9 a.m. to noon and 1 to 4 p.m. in the ACC Urology Clinic, 6th floor NE.
- Monday, October 5, 9 a.m. to noon and 1 to 4 p.m. at the Mount Zion Outpatient Clinic, Room 610.

All men over 50 and men over 40 with a family history of prostate cancer can take part in the free screening. Prostate cancer is the most common cancer in American men. One in 11 men develop the disease. For African-American men, the ratio is one in nine. The estimated deaths for 1992 will total 34,000.

There is treatment for prostate cancer but early detection is critical. More than 80 percent of all patients whose tumors are diagnosed at an early stage are alive five years after treatment.

Screening participants will be seen on a first come, first served basis. For more information call 502-2955.

Eugene Anthony: Living Proof

Eugene Anthony, a 60-year-old San Francisco photographer, saw the ads for last year's prostate cancer screenings at UCSF, and decided he'd better go get checked.

Following the initial check-up and further testing, urologist Perinchery Narayan gave Anthony the news: He had cancer of the

(continued on page 7)

Remember the time Bill Kerr went to live in Chicago, but missed UCSF so much that the only thing he could do was just sit around in his hotel room and chew on his knuckles? (Your story has to be true, however.)

Got a Good Story About Bill Kerr?

Do you have a favorite (funny) story about Bill Kerr?

If so, jot it down and immediately send it to the Auxiliary Office, Box 0208. The deadline for submissions is Friday, September 25.

If your narrative is selected as the best, it willl be included as part of Bill's Roast during the Auxiliary's Oktoberfest on Tuesday, September 29.

Furthermore, you'll be entitled to a free reservation for the event — so you can be there personally to watch Bill blush as your story is told.

For further information, call 476-4906.

Diamonds, You Say? Or Exotic Travel? Enter This Raffle

Whether or not you attend the Auxiliary's Oktoberfest, you can still enter the raffle drawing that will be held at the event. The grand prize is round-trip airfare for two anywhere that United Airlines flies in the US (including Hawaii) or Mexico, courtesy of Corporate Travel Services in Oakland and United Airlines. The first prize is a 1.5 carat diamond tennis bracelet from Gold's R Bag.

Tickets are $1 each or six for $5, available at the following places:

- The Auxiliary Office, M 182
- Through the campus mail. Send a check made out to "Hospitals Auxiliary" to the Auxiliary Office, Box 0208.
- At ticket tables in the Med Sci lobby. (See display case in the ER lobby for times, or call 476-4906.)
- At the event itself

Besides the prizes mentioned above, there is a growing list of additional prizes you could win:

- Oriental rug from Chroma Industries SF/ Boghosian
- Getaway in Napa Valley — two nights at Murray's Guest House near the Silverado Trail
- A night's stay for two at the San Francisco Marriot
- Wildflower screen print by Hisao Yokota
- Two handmade ceramic dolls
- Dinners or brunches for two at the following restaurants:
  Trader Vic's, Emeryville
  Joe's of Westlake
  The Cliff House
  Caprice in Tiburon
  Alta Mira Hotel
  Ya Ya Cuisine on 9th Ave.
  Uncle Yu's Szechuan in Lafayette
- Strand of Majorca pearls
- Giant stuffed bear from Dakin
- A gift from Gump's
- Gift certificates from Dreyers Ice Cream

Note: The prizes are still accumulating. Check next issue of *Medsounds* for an update.

Mount Zion: Subsequent EIR Complete

The draft of the "Subsequent" Environmental Impact Report (SEIR) on Mount Zion construction is now complete, and a formal public hearing is scheduled for Tuesday, September 22.

The SEIR, which deals with changes in the previous construction proposals for Mount Zion, supplements the original EIR approved in 1990.

The formal public hearing is an opportunity for members of the community to speak "on the record" in regard to the SEIR, and to ask questions that UCSF will answer in the final SEIR.

The hearing, which begins at 6 p.m. at the Japanese Cultural Center, 1840 Sutter Street, follows several informal community meetings in which the proposed changes were discussed.

Individual copies of the draft SEIR are available at the information desk in the Mount Zion lobby and from UCSF Community Relations. Review copies are available at several public libraries and the libraries at both the MZ and Parnassus sites.

The revision of the original construction proposal is related to developing plans for a Comprehensive Cancer Center at Mount Zion.

The main changes include keeping the Pavilion building as an interim outpatient cancer treatment center while a new facility is under construction. The original plan called for tearing down the Pavilion to make way for construction of a research center and outpa-
